AIR CONTROL KITS

Pneumatic Controls

Designed for mounting inside the truck cab, the momentary controls are VSB6 Version 3.2 Section J4 compliant for body mounted tippers.

Manufactured to exacting tolerances ensuring consistent, trouble-free operation.

Hydrec Powauto produces a wide variety of controls dependent on your requirements. From hoist only to the most complex truck and trailer assembly.

Configured for discreet fitment – ordering the right control for your truck cab is easy.

Suits:

Truck hoist applications

Truck and trailer applications

Product Features

- **Integral Plastic Body**
Engineering plastics technology for accuracy and repeated cycles of operation.
- **Brackets and Pedestals With CK Kits**
Use with or without, depending on requirements.
- **Light**
Visual check when PTO is engaged and auxiliary function operated.
- **Clear Decals**
Ergonomically designed for ease of use.
- **Cams Made From Kevlar**
Long wearing, consistent operation.
- **Auto Disengage for PTO**
Prevents damage to your transmission due to prolonged engagement.
